

# Mark Anthony E. Saromines

**ReactJS | React Native Developer | Mobile Developer**
Email: tonysaromines@gmail.com
Mobile: 09176291740
Address: Phase 2B Blk 22 Lot 29, Casa Mira South, Naga, Cebu
Portfolio: https://tonyph-portfolio.vercel.app

---

## SUMMARY

- Experienced web, desktop, and mobile development with a demonstrated history of working in the information technology and services industry.
- Propose strategic technology guidance, IT Infrastructure & Hosting to clients.
- Strong engineering professional skilled in React JS, React Native, Flutter, HTML5, CSS3, JavaScript, PHP, LAMP, SQL/NoSQL database, MVC Frameworks, Versioning Control System, Agile methodology and various components on web and mobile development.
- Find solutions for technical problems, design project architecture, support team on solving
- Designed and implemented API services, complied with security standards, solved difficult issues, make sure all teams follow the predefined architecture
- Experienced in both back-end and front-end development.
- Have multiple experiences on handling projects with complex structures and requirements.
- Meeting with customers to clarify requirements & transfer to the development team.
- Capable and willing to learn new technologies and programming languages as needed.

---

## TECHNICAL STACKS

| | | |
|---|---|---|
| Languages | : | JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3 |
| Frameworks | : | React Native, ReactJS, Redux, Flutter, CodeIgniter, NextJS |
| Tools | : | Git, SVN, NPM, Expo, Firebase, NodeJS, REST API, GraphQL, Apollo Client, Apollo Server, Jira, Trello |
| Databases | : | MySQL, PostgreSQL, MongoDB, MariaDB, Redis, SQLite |
| Methodologies | : | Agile (SCRUM), Waterfall |
| Services | : | Agora, Pubnub, DailyCo, Resend, AWS, Digital Ocean, Shopify, CloudFlare, Sendgrid, Vercel, Neon |

# FEATURED MOBILE & WEB APPLICATIONS

**Spago Live (**Link: https://live.spago.com**)**

- A real-time interactive streaming platform featuring live video broadcasts, multi-party calls, and integrated chat, complete with a custom snippet generator that allows clients to embed live-stream widgets directly onto external websites.

**Zoom Commerce Live (**Link: https://live.zoomcommerce.com)

- A live-commerce platform modeled after Bambuser that combines low-latency video streaming, instant messaging, and interactive shopping tools to drive direct-to-consumer sales during live events.

**FocusCEO (**Link: https://app.focusceo.com/login)

- An executive communication ecosystem built with a web platform and a Flutter mobile app, offering secure live-video broadcasting, multi-party conferencing, real-time chat, and robust content moderation controls.

**PadelLink**

*Social platform for padel sports*

- GooglePlay: https://play.google.com/store/apps/details?id=dk.padellink.app&hl=en
- AppStore: https://apps.apple.com/us/app/padellink/id6448229199

**Deskma**

*Workflow automation for craftsmen in Denmark*

- GooglePlay: https://play.google.com/store/apps/details?id=com.deskma.app
- AppStore: https://apps.apple.com/kz/app/deskma/id1273993979

**Lykkebo**

*Time tracking & job booking for painters*

- GooglePlay: https://play.google.com/store/apps/details?id=com.lykkebo.lykebbo
- AppStore: https://apps.apple.com/dk/app/lykkebo/id1457820094

**Canco Cash**

*Real-time gas station promotions in Canada*

- GooglePlay: https://play.google.com/store/apps/details?id=com.ackroo.canco&hl=en
- AppStore: https://apps.apple.com/kh/app/canco-petroleum/id1523902717

**MyUniqueMoments (MUM)**

*An application for parents to track important data of their child's growth journey*

- GooglePlay: https://play.google.com/store/apps/details?id=consumer.danone.mum
- AppStore: https://apps.apple.com/sg/app/myuniquemoments/id1480197334

**MaxRep**

*Crypto-integrated fitness app*

- https://maxrep.8chain.io/

## PROFESSIONAL EXPERIENCES

**Affirm Digital**

October 2025 – August 2026

Position: Senior React-Native/ReactJS Developer (Freelance)

**Projects**:

- **Spago Live** *(Web & Mobile) (https://live.spago.com)*
    - Architected a live-streaming ecosystem using React, React Native (Expo), and Node.js, integrating Agora for live broadcasts, Daily.co for video calls, and PubNub for real-time chat.
    - Developed a custom code-snippet generator that allows users to easily embed interactive live-stream widgets directly onto external websites.
    - Built advanced moderation and administrative modules to oversee real-time chat interactions, user permissions, and live video streams.
- **Zoom Commerce Live** *(Web & Mobile) (https://live.zoomcommerce.com/)*
    - Built a high-engagement live commerce platform modeled after Bambuser, utilizing React, React Native, Expo, and Node.js to bridge real-time video with e-commerce functionality.
    - Integrated Agora, Daily.co, and PubNub to power seamless interactive shopping broadcasts, low-latency live chat, and video meetings across web and mobile.
    - Engineered custom administrative tools for stream moderation, viewer management, and dynamic web snippet distribution.
- **FocusCEO** *(Web & Mobile)(https://app.focusceo.com/login)*
    - Architected a cross-platform executive video collaboration app utilizing React and Node.js for the web client and **Flutter** for cross-platform mobile development.
    - Implemented real-time communication infrastructure featuring Agora for low-latency live video broadcasting, Daily.co for multi-party conferencing, and PubNub for instant messaging.
    - Designed modular security and content moderation features alongside embeddable code snippet functionality for seamless external platform integration.

## Teknosprint Solution Inc.

April 2025 – September 2025

Position: Senior React-Native/Web Developer (Freelance/Consultancy)

**Projects**:

- **Ice Angel Mobile App** (https://drive.google.com/file/d/18whzV5bqel4WAuukzIdETokOLvBy1zKU/view)
    - Designed and developed a cross-platform mobile e-commerce application enabling a holistic wellness brand to sell specialized organic products—including signature ginger oils and handcrafted therapeutic rubs—directly to consumers. Integrated secure payment processing, an intuitive product catalog, and streamlined order management to enhance customer acquisition and boost digital sales.
    - **Key Achievements:**
        - Implemented an end-to-end shopping cart and checkout flow with user-friendly search and filtering.
        - Optimized app layout to highlight product benefits, increasing overall user engagement and conversion.
        - Built a centralized back-end management system for real-time inventory and order tracking.

**Responsibilities:**

- Spearheaded UI/UX enhancements and performance optimizations across multiple legacy e-commerce web applications, improving responsiveness and visual consistency across devices.
    - Refactored component structures and styling logic for maintainability and scalability.
    - Technologies: ReactJS, HTML5, CSS3, Bootstrap, TailwindCSS, Git
- Provided on-going support and feature updates for Teknosprint's proprietary in-house mobile application, ensuring compatibility with the latest OS versions and SDKs.
    - Implemented bug fixes, UI refinements, and modular code improvements to streamline future development.
    - Technologies: React Native, TypeScript, Expo, Git
- Collaborated with internal teams to align design tokens and branding assets across web and mobile platforms, contributing to a unified design system.
- Delivered clean, reproducible code and documentation for seamless handoff and onboarding of future developers.

## Viseo Philippines Inc.

June 2022 – April 8, 2025

Position: React Native Developer / ReactJS Developer

**Projects:**

- **Singapore Night Festival 2023 & 2024**
  - **Description**
    - Developed a web application to bring the Bras Basah.Bugis (BBB) precinct to life with the theme "Singapore, the Great Port City." The app highlighted Singapore's evolution from a historical hub of trade and exchange into a vibrant modern metropolis through engaging user experiences.
  - **Technologies**
    - ReactJS, React Hooks, Typescript, NodeJS

- **My Unique Moments (MUM) Mobile App**
  - **Description**
    - Designed and implemented an all-in-one mobile app enabling parents to track their child's well-being, early development, and memorable milestones conveniently.
  - **Technologies:**
    - React Native, Redux, Typescript, NodeJS

- **Autumn App**
  - **Description**
    - Built an intuitive app to help users plan and manage their financial life effectively. Autumn offered tools to grow, protect, and simplify financial planning for life's ups and downs, empowering users to shape their desired future confidently.
  - **Technologies:**
    - React Native, Redux, Typescript

**Teknosprint Solution Inc.**

December 2021 – June 2022

Position: Senior React-Native & Flutter Developer

**Projects:**

- **Primebooker App (Prototype)**
  - **Description:**
    - A mobile app focused on centralizing rental spaces and service facilities within the Cebu area. The app simplified processes for

businesses by providing easy access and control throughout the workflow

- **Technologies:**
  - React Native, Expo, Tailwind CSS, Firebase, NodeJS
- **Key Responsibilities:**
  - Designed the app workflow to optimize user experience
  - Transformed Figma designs into an interactive and fully functional mobile application.
  - Implemented a payment system utilizing a third-party payment gateway.

- **MaxRep (Workout-and-Earn) -** published (Appstore & Googleplay)
  - **Description:**
    - MaxRep is the first-ever Workout-and-Earn platform to be developed in the crypto space. With every workout session you do, you get to earn 8CHAIN in-game tokens that can be used however way you want. Another way for ordinary individuals, athletes, and fitness enthusiasts to make a living.
  - **Technologies:**
    - Flutter, AWS, NodeJS
  - **Key Responsibilities:**
    - Developed and integrated backend APIs using NodeJS to handle user authentication, token distribution, and data synchronization
    - Utilized AWS services to deploy, scale, and manage application infrastructure for optimal reliability and scalability
    - Implemented real-time tracking features for workout data using Flutter’ s libraries and tools

**Convrtx**

September 2021– December 2021

Position: Tech Lead – Mobile Department

**Projects:**

- GuidED Global (Flutter)
  - Developed a travel app to guide users to their next travel destination, integrated with a tourist-traveler booking system for seamless planning.
- ICU BLE – (Flutter)
  - Designed a safety app that triggers sonar sounds via third-party devices when users feel unsafe, enhancing personal security.
- Flighteno – (React Native)
  - Built a platform enabling users to purchase items overseas and find

travelers to bring those items back to their country.

- Canco – (React Native)
  - Created a mobile app for a leading Canadian gas station, featuring real-time gas prices and promotional updates.

**Deskma**

August 01, 2018 – September 2021

Position: React Native Developer

**Projects:**

- **Deskma Mobile App –** published (Appstore & Googleplay)
  - **Description:**
    - Developed a business solution mobile app catering to craftsmen in Denmark. The app provided companies and individuals with tools to efficiently manage their daily tasks and workflows
  - **Technologies:**
    - React, React Native, Redux, Expo, MySQL, Git
  - **Key Responsibilities:**
    - Reverse-engineered the first version's layout and structure, transforming it into a more sophisticated project with extensive layout enhancements.
    - Defined the architecture and design framework for the app's development.
    - Deployed the app successfully on both App Store and Google Play.

- **Lykkebo –** published (Appstore & Googleplay)
  - **Description:**
    - Created a mobile app for painting service providers in Denmark. The app managed job bookings and tracked painters' working hours, enabling efficient time registration
  - **Technologies:**
    - React, React Native, Redux, Expo, MySQL, Git, Typescript
  - **Key Responsibilities:**
    - Designed high-level architecture and project structure.
    - Developed a time tracker for job duration registration.
    - Deployed new builds to App Store and Google Play.
    - Created a timesheet feature with weekly, monthly, and yearly views.

- **Dogley** – published (Appstore & Googleplay)

- **Description:**
  - Developed a mobile application connecting dog owners with trainers and dog walkers, simplifying pet care and service accessibility.
- **Technologies:**
  - React, React Native, Redux, Expo, MySQL, Git, Typescript
- **Key Responsibilities:**
  - Successfully deployed the app on both App Store and Google Play.

**Alliance Software Inc. / CSY Outsourcing**

March 16, 2015 – May 21, 2018

Position: Associate Technical Specialist I – PHP Developer

**Projects:**

- **Accountancy Insurance**
  - **Description:**
    - Accountancy Insurance is a leading provider of protection for accounting professionals, supporting thousands of accounting firms in Australia, New Zealand, and Canada.
  - **Technologies:**
    - PHP, MySQL, JQuery
- **Dash Multi-Corp (SugarCRM)**
  - **Description:**
    - Developed and supported a CRM platform designed to enhance the performance of marketing, sales, and service teams within Dash company.
  - **Technologies:**
    - SugarCRM, PHP
- **Case Portal (CodeIgniter)**
  - **Description:**
    - Built an internal project management system for tracking the company’ s existing projects and monitoring their statuses.
  - **Technologies:**
    - CodeIgniter, MYSQL, PHP
- **Alliance Edge Web Page (CodeIgniter)**
  - **Description:**
    - Created a web page to support internal operations and project needs.
  - **Technologies:**

- PHP, SVN, SugarCRM, CodeIgniter, MySQL, jQuery

**iRender Animation Inc.**

May 5, 2011 – March 5, 2015

Position: Assistant Team Lead (Web Team)

**Projects:**

- **KBEL (Knowledge Building & English Learning)**
- **AIMS (All Content in my Server)**
- **Irendertutor (Online ESL)**
- **Andromeda (Custom Massage Therapy Service)**
- **Delphi Programs (Moohan, ECL LC, MFB)**
- **Lincoln College Cebu Website**
    - **Technologies:**
        - PHP, HTML, CSS, Javascript, SVN, Delphi, Codeigniter, MySQL, JQuery
    - **Key Responsibilities:**
        - Delivered solutions for various projects requiring distinct technical proficiencies.
        - Developed and implemented tasks based on project requirements as directed by supervisors or senior specialists.

**Aleson Shipping Lines**

June 2010 – May 2011

Position: Web Developer

**Projects:**

- **alesonshippinglines.com**
    - **Technologies:**
        - PHP, HTML, CSS, Javascript, JQuery
    - **Key Responsibilities:**
        - Transitioned the company’ s business transactions into a web-based application for greater efficiency and accessibility.

**Affiliated Computer Services**

April 2009 – June 2010

Position: Data Claim Analyst

**Projects:**

- **BPO -** Managed the proper designation and responses for client claim applications in the BPO domain.

---

## TRAININGS

- **Effective Communication Skills Training with Email writing and Business Correspondence**
  Unit 604, Innove Plaza Bldg., Cebu Business Park, Cebu City
